

How to Transfer Your Cengage Learning ebook From Your Computer to Your Android Mobile Device

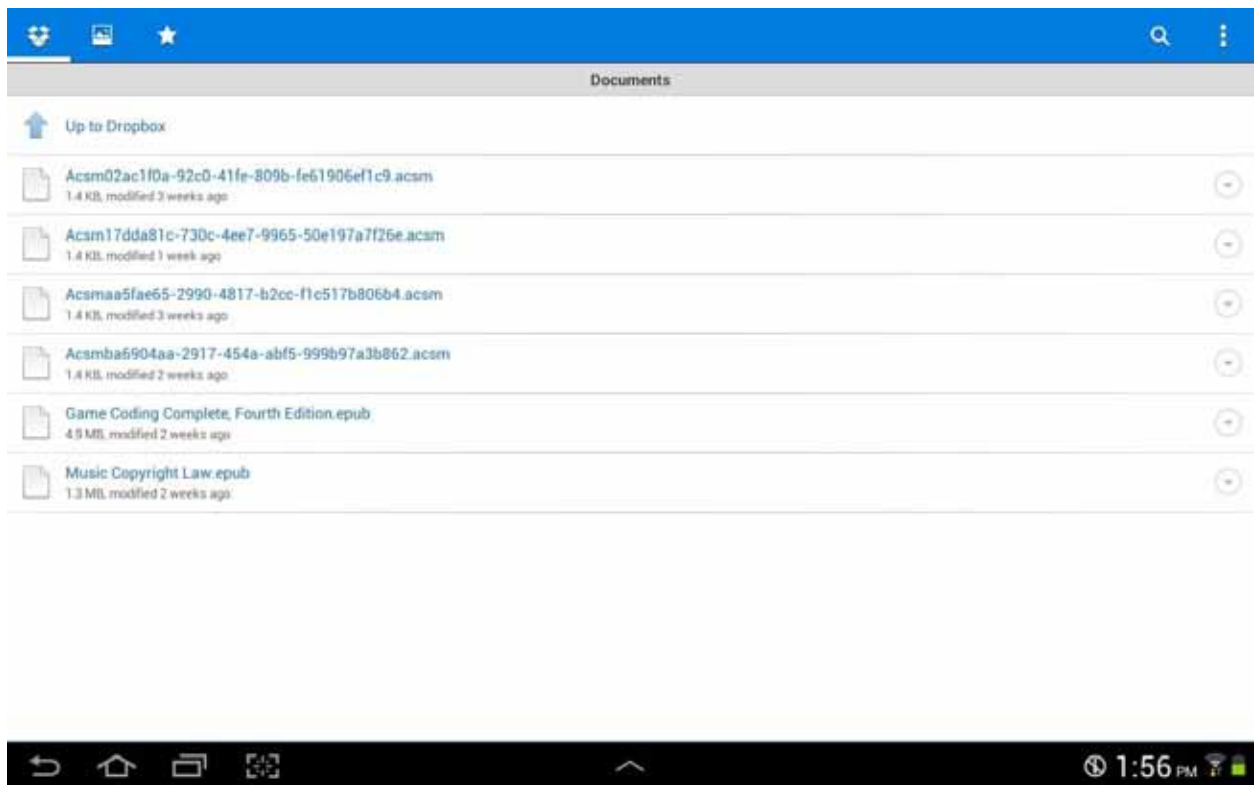

Before you begin, make sure you have:

- A registered Adobe ID with adobe.com (you can get one [here](#))
- Adobe Digital Editions on your computer (download here: <http://www.adobe.com/products/digital-editions.html>)
- A registered DropBox account and the DropBox app downloaded to your mobile device
- Downloaded the BlueFire app for your mobile device
- Have purchased your ebook and it has been downloaded to your computer

1. First, drag and drop the eBook authentication file to your DropBox on your computer:

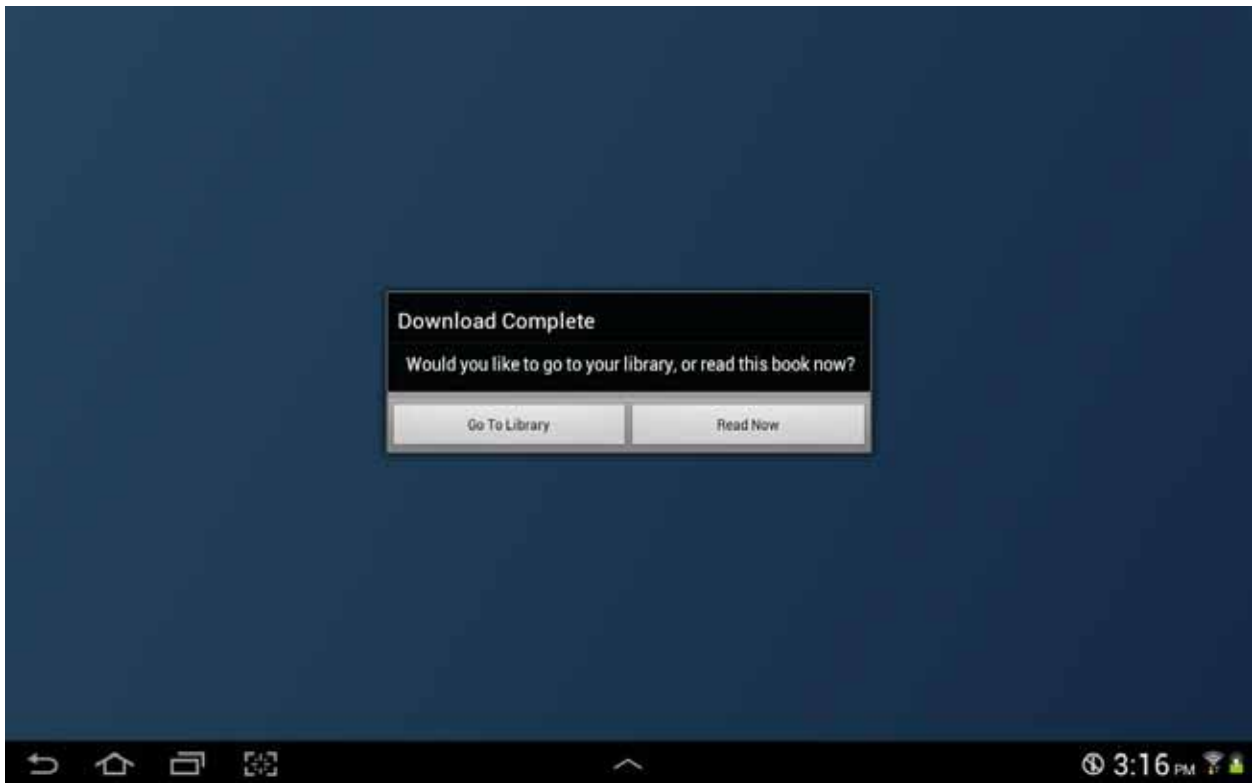

- Next, go to the location in DropBox on your mobile device and locate the same eBook authentication file:

- Select the authentication file:

4. You will get a message that says "Download Complete" with the option to either click on "Go To Library" or "Read now."

5. Clicking on either option will open the BlueFire App

6. BlueFire will ask you to login with your Adobe ID to authenticate the eBook that is being added to your BlueFire app Library (this can be done prior to downloading the eBook from Dropbox).

7. Ebook will open and is now available to read on your mobile device.
